GW-667 Automatic Coil Winding Machine

SPECIFICATION

NAME	GW-667 winding machine
Spindle number	1
Spindle speed	3000rpm
Wire size	0.03-0.8mm
Winding diameter	1-80mm
Spread range	1-320mm
Power	220v 50/60HZ
Main motor	750W
Dimension	80*33*38CM
Weight	50KG

GREWIN INDUSTRIAL GROUP CO.,LTD.

Add: The fourth floor A-A3 zone aviation business area,Dongli Distr,Tianjin,China.

Advantage:

The winding machine is controlled by a multi-functional single-chip microcomputer, and the data settings are easy to save for a long time;

The winding machine automatically arranges the wire, and automatically stops when the set number of turns is reached.

It has the function of parking at both ends, and the position of the wire axis can be adjusted by the teaching function;

It can assist the setting of winding point and width position, and can also input digital setting.

The wiring effect is good, the startup speed is fast, and the number of turns is accurate.

PRACTICAL APPLICATION :

TRAINING CUSTOMER TO OPERATE WINDING MACHINE :

- 1.All service engineers with 10 years experience are given special technology training, who can deal with various breakdown problems.
- 2.Guide the user to use accurately and how to maintain the product. Provide free consultation about production process technology of electronic products.
3. In order to guarantee the machine used normally, we'd have training on how to operate, use and maintain our product by English manual, video, guiding online.

PACKAGING:

Packaging Material: Carton/Wooden case with foam inside.

1. General package(Paper carton or plastic bag): For small equippe d parts for Toroidal Transformer Winding

Machine , Package it with form and pack paper to guarantee unbroke n during the transport.

2.Wooden case package: For larger scale Toroidal Winding machine ,we have special skilled

carpenter, who would make the proper wooden case with exact thi ckness,density,length. The up arrow ↑marked on the outer wooden
